

VNET

V:NET is Victrex's internal intranet site. This site is only available from within the corporate network, or while connected to the corporate network via VPN.

To access, open your web browser and go to:

http://vnet

As you use VNET, you may browse to links that require access rights.

When prompted for a username and password, you should enter:

victrexp\c\firstname.lastname (for example, victrexp\c\jack.kleiss)

and your Victrex password.

If you don't know your Victrex password, or it's been longer than 42 days since you changed it, contact Jack or send an e-mail to ictservicesdesk@victrex.com requesting a password change for your victrexp\c\firstname.lastname account.
